

WELCOME TO FRED DISPENSE PLUS

So what changes can you expect?

Fred Dispense

- Legacy dispense system
- Manual monthly update process
- Stock on hand visible after drug selection
- Manual Drug Ranking

Fred Dispense Plus

- Fresh and **intuitive** user interface
- **Automatic** monthly updates
- Stock on hand visible **prior** to drug selection
- **Dynamic** Drug Ranking based on SOH and last cost

PLUS you'll experience the benefit of these new features:

AppBar

Choose which apps work best for you - add them to your AppBar for easy access from your dispense screen.

UserVoice

Tell us how we can improve your user experience of the dispensing workflow.

Share, vote and comment on Fred Dispense Plus and MedView UserVoice forums.

Improved Patient History

Compliance check highlights previous dispensing of the same drug and strength.

- Displays the number of days between each dispensing
- Highlights same drug/strength in patient history

Secure and enhanced integration of third-party apps

Improved drug search

Additional fields in the drug search results display Streamlined Codes.

Script Audit

Displays an audit trail of all actions carried out on a script.

List of Scripts Report

A smart new report that allows you to apply different filters, add/remove columns, add totals and more!

Final Check

- Displays essential script details and eScript image
- Allows you make final corrections, start an intervention, or print a CMI
- FinalCheck mode to perform on scripts prior to handing out to a patient or facility
- Initials of FinalCheck pharmacist recorded

Easily save and export reports

Upgrading to Fred Dispense Plus is easy!

- Simple upgrade process
- Your favourite keyboard shortcuts work the same
- The same workflow, no re-training required – just familiarise yourself with the layout and features
- Online Learning Pathways, video tutorials, and extensive product information available online 24/7
