

ePrescriptions in AQUARIUS

To configure eRx in Aquarius simply register your pharmacy details at www.ERX.com.au.

Simple Retail will then contact you to arrange a time for eRx to be activated.

Safer medication begins with a barcode:

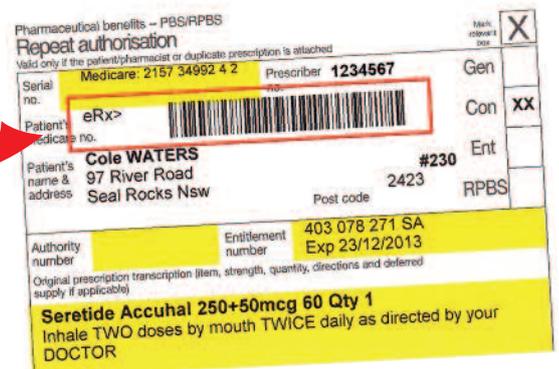

- Improved Patient Safety
- Faster, more efficient dispensing
- Fully integrated and supported in Aquarius

PRIVACY & SECURITY

eRx is independently audited for privacy to ensure it meets all obligations under the Privacy Act 1988. eRx is also accredited under the Australian Government National eAuthentication Framework around security and is independently verified as compliant with the requirement for information security for a "Medical-in-Confidence" system, as stipulated by the Commonwealth Government.

Look for eRx barcodes on all your scripts

Always check the Duplicate side of your Original Scripts.

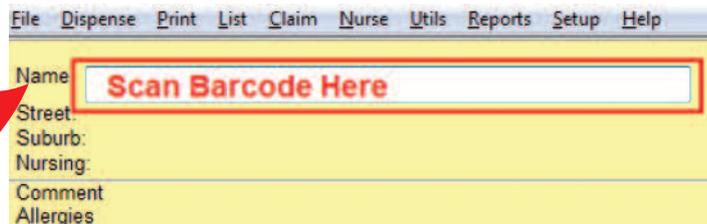

How to use eRx

Step 1

Scanning Script

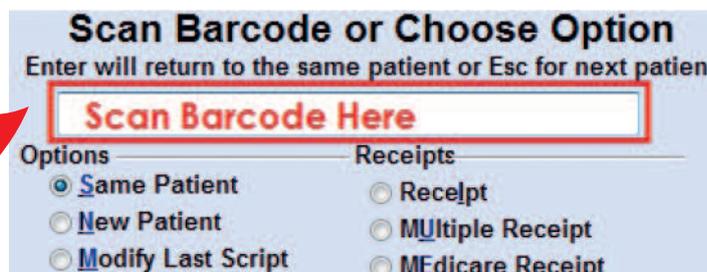

OPTION 1

Scan the eRx barcode in the <Name> field in the dispense window.

OPTION 2

Scan the eRx barcode in the blank field in the Print Options box.

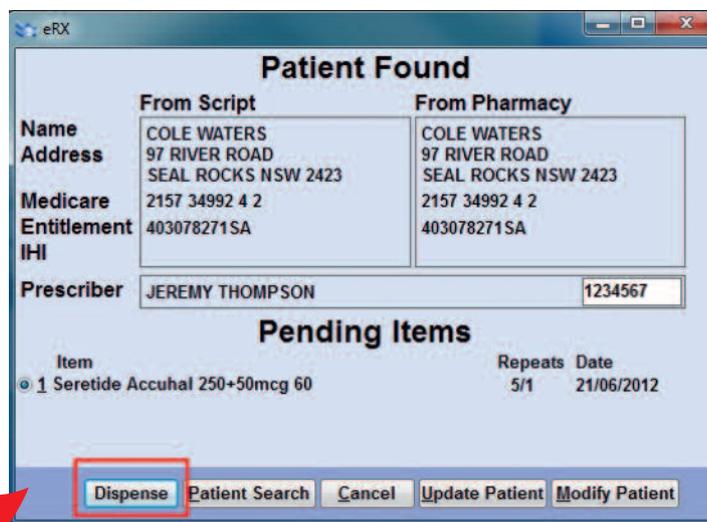

Step 2

Patient details

Once information is retrieved successfully, one of the following windows will appear.

OPTION 1

If the patient details matched between the eRx script and pharmacy database, this window will appear. Press <Enter> or <D> to dispense it.

OPTION 2

When there are multiple items on a script, select the item to dispense before continuing.
