

INDEPENDENT PHARMACEUTICAL
SUPPLIES

17th February 2020

Dear Valued Customer,

From the 24th February 2020 Upjohn Australia Pty Ltd, a subsidiary of Pfizer Inc, will return to distributing its medicines through Community Service Obligation (CSO) pharmaceutical wholesalers.

We see this as an important recognition of the current wholesale supply chain model and the benefits the CSO provides to our customers.

IPS has been working closely with Upjohn to ensure continued smooth supply by ensuring we have appropriate inventory levels in our distribution centre. Please also be advised that your IPS trading terms and any associated supplier deals will be available from 24th February.

It is important that you change the Preferred Supplier in your POS to IPS for the products listed below after 3pm Friday 21st February 2020.

List of Products
