Schedule of Pharmaceutical Benefits

Summary of Changes

Effective 1 May 2026

Fees, Patient Contributions and Safety Net Thresholds

The following fees, patient contributions and safety net thresholds apply as at 1 May 2026 and are included, where applicable, in prices published in the Schedule —

| | | |
|--|--------------------------------------|-----------|
| Dispensing Fees: | Ready-prepared | \$8.88 |
| | Dangerous drug fee | \$5.50 |
| | Extemporaneously-prepared | \$10.92 |
| | Allowable additional patient charge* | \$2.79 |
| Additional Fees (for safety net prices): | Ready-prepared | \$1.48 |
| | Extemporaneously-prepared | \$1.91 |
| Patient Co-payments: | General | \$25.00 |
| | Concessional | \$7.70 |
| Safety Net Thresholds: | General | \$1748.20 |
| | Concessional | \$277.20 |
| Safety Net Card Issue Fee: | | \$12.78 |

* The allowable additional patient charge is a discretionary charge to general patients if a pharmaceutical item has a dispensed price for maximum quantity less than the general patient co-payment. The pharmacist may charge general patients the allowable additional fee but the fee cannot take the cost of the prescription above the general patient co-payment for the medicine. This fee does not count towards the Safety Net threshold.
