

## LABEL PRINTING OPTIONS – LONG DIRECTIONS PRINT

Last Updated: Thursday, 2 April 2009

Author: Clare Porter

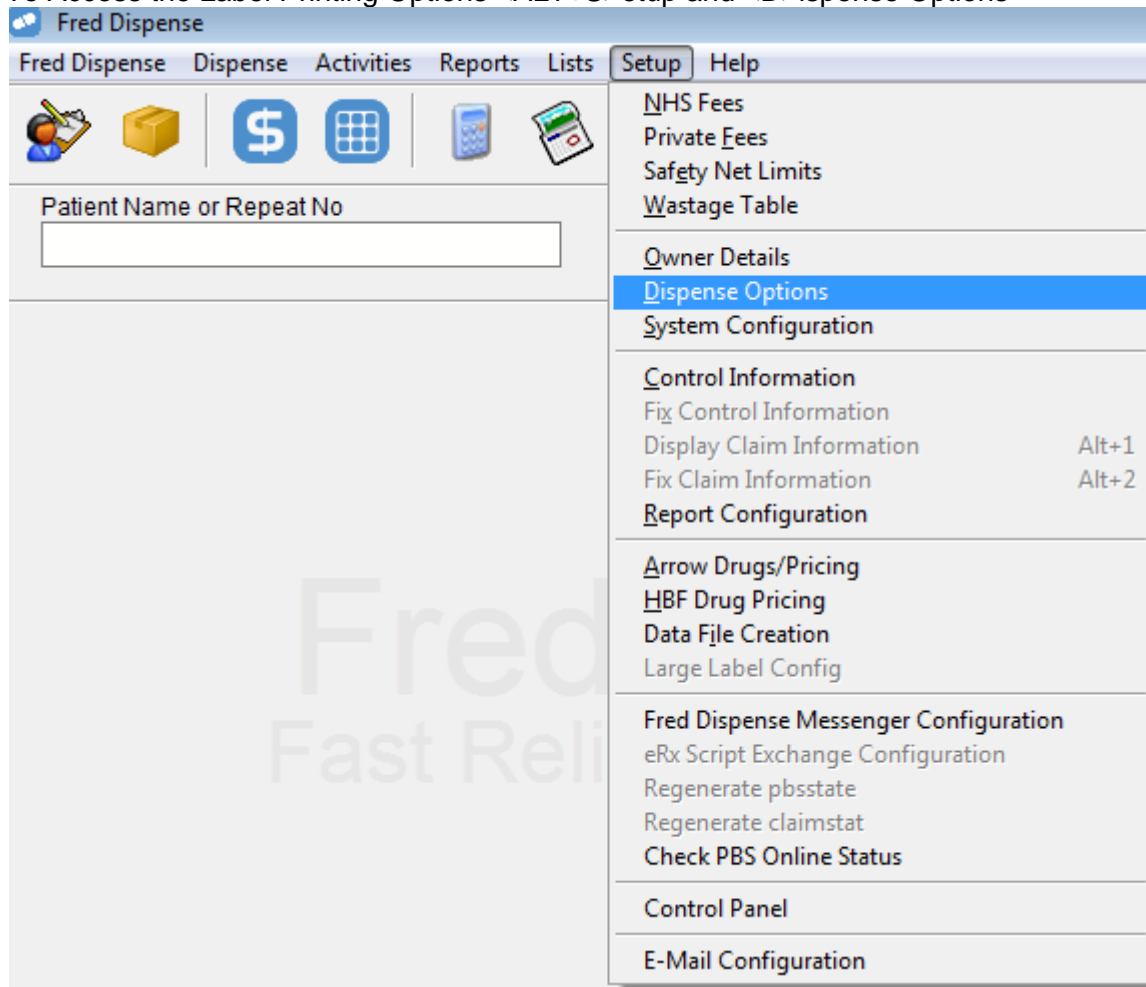

Summary .....	1
Details .....	1

### Summary

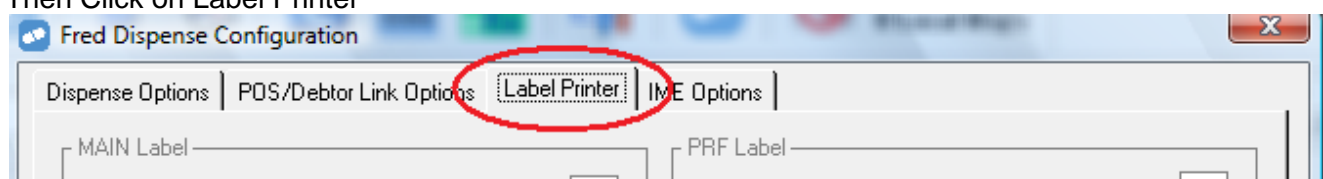

This option is used for labels with long directions the format of the label can be change to fit more directions on the label.

### Details

To Access the Label Printing Options <ALT+S>etup and <D>ispense Options

Then Click on Label Printer

**LONG DIRECTIONS PRINT (C/8/B/N)**

For Labels with long Directions, Change the Format of the Label to <C>ondensed, <8>Lines/Inch, <B>oth or <N>othing (no other format)

**C= Condensed** All directions that print out will be in a condensed format (a smaller font) regardless of the amount of text

**B = Both**

Using this setting Fred will automatically switch between condensed and non condensed format depending on the amount of text in the directions

In this example the amount of text below would normally print out over 2 labels - but Fred Dispense has recognised that if it was condensed then only one Label could be used so it will automatically adjust

11/04/08 8173E 80348W \$31.30 MR DOUGIE NEW 298472		 Tel. 1300 651 118

In the next example the amount of text in the directions is increased and Fred Dispense will compress as much as possible but even when compressed font it used it can't fit that much on just 1 label. Fred Dispense will have to use 2 labels anyway and if it can print all the directions specified on 2 labels in the larger (non compressed) font it will

--

In the next example even more text is added to the directions and Fred Dispense has condensed it down to 2 labels - but there was not enough space for the larger font so Fred Dispense will choose to only use 2 labels in the condensed font rather than waste another label by using the larger font
