

## LABEL PRINTING OPTIONS – PRINT QUANTITY AFTER DRUG

Last Updated: Monday, 6 April 2009

Author: Clare Porter

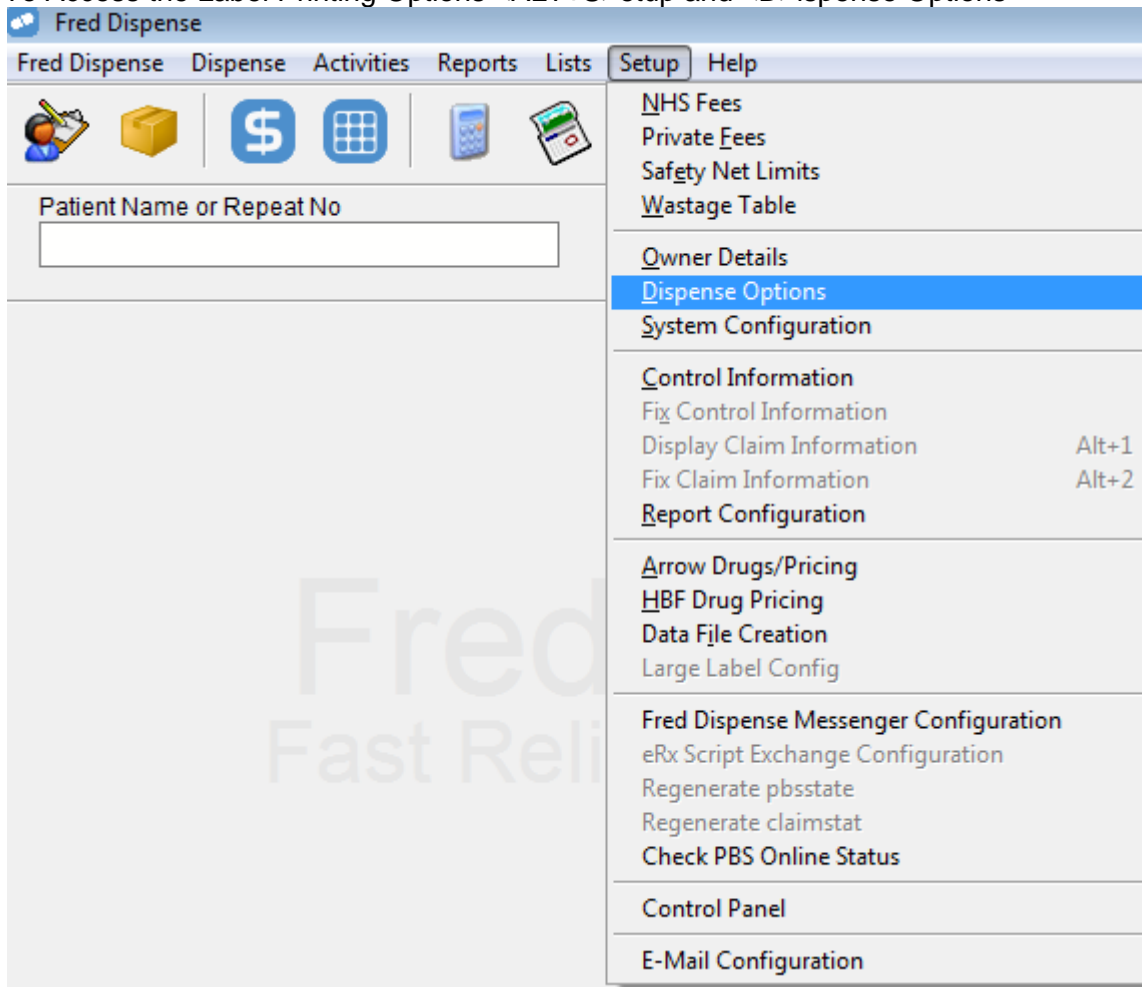

Summary .....1  
Details .....1

### Summary

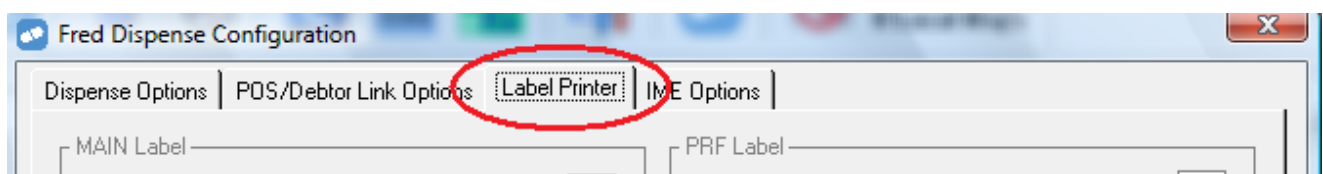

This options allows you to specify where the quantity will print on the main label, either after the drug description or between the patient name and the repeats.

### Details

To Access the Label Printing Options <ALT+S>etup and <D>ispense Options

Then Click on Label Printer

This option will print the script qty after drug description on the label  
 \*\* important to note this setting directly impacts the option to Print (P)DE or (C)onc. No or (N)ursing, (W)ard or (B)lank\*\*

Y = the drug qty will print next to the drug description at the top

N = the drug qty will print between the patient name and the repeats, as this is the area that Print (P)DE or (C)onc. No or (N)ursing, (W)ard or (B)lank would print, so by having "Print Qty" after drug set to N will override the "Print PDE Conc, Nursing Ward or Blank setting"
