WHAT'S NEW IN FRED OFFICE 3.7?

Windows 8.1 and Internet Explorer 11 Compatibility

Microsoft is ending its support for [Windows XP on 8 April 2014](#).

Customers upgrading or purchasing equipment running on Windows 8.1 and Internet Explorer 11 will not experience noticeable changes in the behaviour of Fred Office 3.7

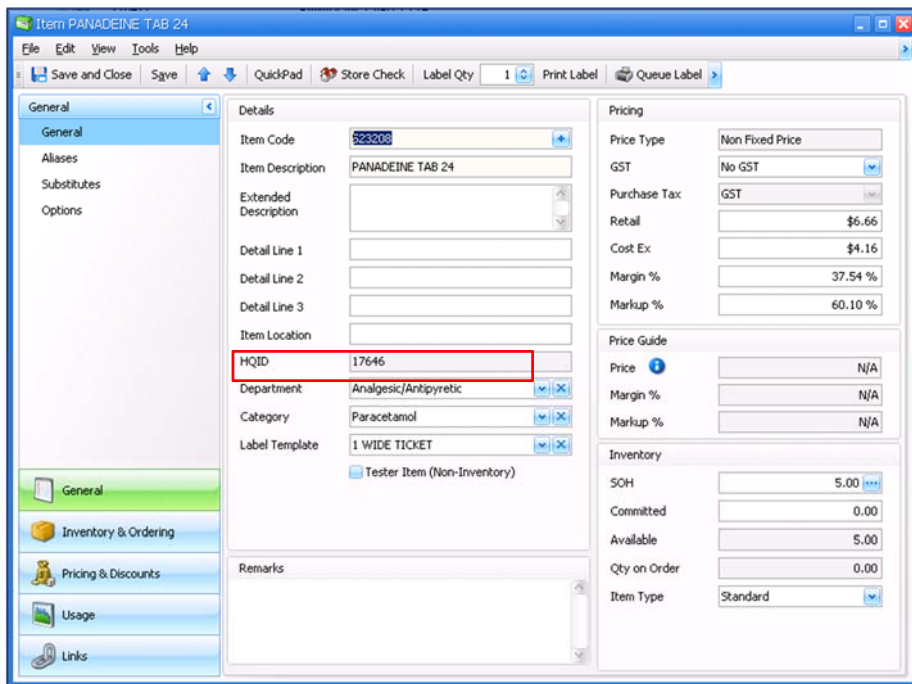

Important Note! Earlier versions of Fred Office are **NOT compatible** with Windows 8.1 and Internet Explorer 11.

To facilitate a smooth transition, we recommend speaking to a Fred Customer Support staff **before** purchasing new equipment or upgrading existing machines.

New HQID fields – AppCAT Reference ID

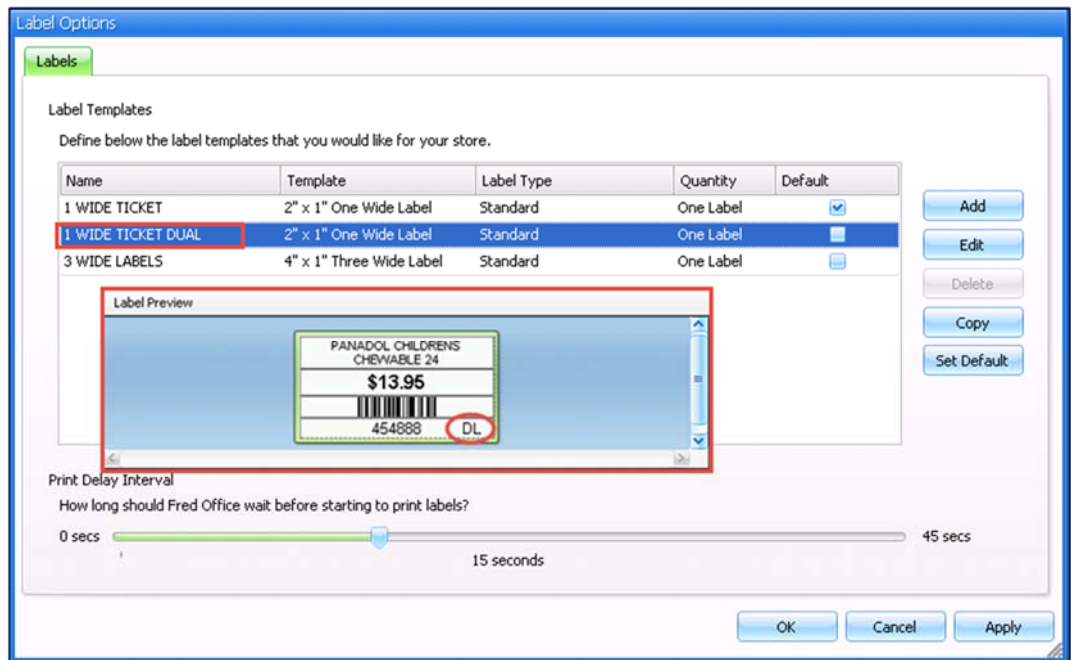

The integration of Fred Office with AppCAT is intended to simplify data maintenance and management.

To further assist customers with the integration of these two products, we now include the **HQID AppCAT** reference number in the Item card and Supplier Card. This number provides users with a common reference ID for items across the two systems and with other stores. Stores can quote the **HQID** when contacting AppCAT about an item.

Dual Label Templates

Stores can now assign a new label template called **Dual Label Template** to items that are located in *more than one area* of the Store.

The option **Dual Label Template** displays in the **Label Template** drop down in the Item card. The Label prints with the flag **DL** to assist staff on the shop floor.

Item location in Stock Valuation Report and Stocktake

An **Item Location** field has been added to the **Stock Valuation** report and the **Stocktake Module** to allow Stores to use this reference when counting stock.

Negative Stock on Hand Report

Due to a request from a number of Fred Office users, new columns have been added to the **Negative Stock on Hand Report**:

- **Last Ordered Date**
- **Cost Ex**

These fields are intended to assist Stores when analysing items that appear in this report.

Mobility displays Promotion Price

The **ITEM LOOKUP** feature on the Mobility Device now displays the **Promotion Price** for items if they are on a *current* promotion.

Note: This is specifically relevant to **Set Price Promotions** or **Buy Down Promotions**.

News Larger Mobility Device available – MOTOROLA MC55A

For more information, contact Fred Sales on 1800 888 828 or email sales@fred.com.au

WHAT'S FIXED IN FRED OFFICE 3.7?

Invoice Printing

Columns and totals now correctly display in the print out of an invoice.

Quick Action - Discount Schemes

Discount Schemes can now be applied or changed using Quick Action.

Mobility

Mobility no longer crashes when launching the application.
